What's New

a) New Name

As of January 2001 we're now known as the Learning Resources Centre.

b) New Ordering Model – Aggregated Ordering (AOD)

Save an additional 5% discount on eligible items for aggregated orders placed between February 14, 2001 and April 30, 2001 and we will deliver these orders for September 1, 2001. In fact we will do our very best to have these items delivered to you before the end of June.

To place your request as an aggregated order, please mark your Purchase Order as **"AOD"** or if you use our Internet Shopping cart feature, it's simply a matter of clicking on the aggregated order button and you will save 5% on our new year selling price on the eligible items.

2) Purpose and Use of LRC Buyers Guide

The Alberta Learning, Learning Resources Centre (LRC) Buyers Guide provides a **product listing of (1) all Alberta Learning authorized, approved and/or developed resources for use in delivering the Alberta Curriculum and Program of Studies, and (2) "EXTRA" learning resources carried by the LRC based upon customer "high demand" for the product.**

3) Key Features of our Buyers Guide

a) **Learning resources are organized in "alphabetical order" throughout, first by program/course area, grade or level, series (if applicable) and then by product title**.

b) Alberta Learning authorization designations are identified in the authorization status column. LRC sells additional learning resources that do not go through review or evaluation by Alberta Learning and are carried due to Alberta schools having expressed a "high demand." The products are labeled "EXTRA - Not Reviewed" in the authorization status column.

c) Most sections have their own individually numbered pages.
e.g. DE – 10 Distance Learning section, page 10;
MRC – 5 Materials Resource Centre section, page 5

d) Authorized Resources "no longer available" from source are identified as "OUT OF PRINT." Student Support resources not carried are identified as "VENDOR DIRECT." Place your order request directly with the publisher. Refer to the Publisher List section for contact information.

e) Authorized resources which may be **withdrawn** from the Alberta curriculum in August 2002 or later are shown shaded in a left vertical column called Pend. Rev. (pending review) and where possible an actual date.

f) ***General Learning Resources*** section lists resources in the following product groups: atlases, dictionaries, globes, maps, graphing calculators and accessories, and other groupings.

g) Alberta Learning Publications are listed within their appropriate program/course area with an authorization designation of "AB Learning." Legal documents appear at the beginning of each Buyers Guide section and as well in the General Learning Resources section along with other Alberta Learning publications that are of a general nature and not program/course area specific.

Previously Administered Diploma Examinations (Grade 12) & Achievement Testing Program resources are listed in their appropriate subject area.

h) LRC provides 2 types of Distance Learning Materials developed by Alberta Learning's Learning Technologies Branch (LTB) and French Language Services Branch (FLS) and other distance educational developers as follows:

- Distance Education (DE) materials which for the most part include student module(s) and corresponding assignment booklet(s).
  - The modules are non-consumable and may be used again. Assignment Booklets may be purchased as a package to update the course for the student.
  - The textbooks, videos, novels, lab kits, cassettes, etc. that may be required to complete the DE courses are available from the LRC with the exception of *out of print* resources.
  - The Learning Facilitator's Manuals (LFM) and Teacher's Guides contain the answers for marking and in most cases a final test and answers, and therefore they are available only to schools on a purchase order or to teachers with a verifiable teaching certificate number.
    - The print versions of the LRM and teacher's guides will be phased out over time and replaced by an electronic file on CD ROM, which will be available from the LRC.
      - The CD ROM will include the LRM or teacher's guide and the assignment booklets for the course.
      - The assignment booklets may be customized to meet the individual needs of the student(s) and then printed as needed at the school. The print assignment booklets will still be available from the LRC.
- Correspondence Education (CE) materials are pre-DE materials that incorporate the student lessons in the course material. The core CE courses will be replaced by new materials in the DE format over the next few years. Please consult the LTB website for course production information.

Due to the third party provision and cost recovery nature of the production of these materials, copyright releases cannot be granted on any Distance Learning course.

i) LRC sells selected curriculum resources in audiotape format to schools who have students who are print-disabled. These resources are listed under the "Materials Resource Centre Resources (1-12)" section of the Buyers Guide.

4) Distribution of the Print Buyers Guide and Supplements

a) Distribution of Print Buyers Guide

This year a *new* print Buyers Guide is distributed to each **School Authority Central Office** for further distribution to their schools in March. There are **three separate English Buyers Guides** for Elementary, Junior High and Senior High **and a separate French Buyers Guide for French as a First Language (Francophone and Immersion)**. The distribution ratio for the English versions is based on the school's grade designations.

b) The LRC will provide print Supplements in May and August, listing new resources since the issue of the annual Buyers Guide.

5) Buyers Guide Page Layout

For detailed information on LRCA and GST refer to page GI-4. The LRC will try to hold selling prices unless unusual circumstances warrant otherwise.

Markdowns

"Markdown" selling prices (identified by a slash through the regular selling price) on specific products apply while quantities last. These products are **Non-Returnable**.

d) Learning Resources Credit Allocation (LRCA)

LRCA Purpose

The purpose of the 2001-2002 Learning Resources Credit Allocation (LRCA):

> The LRCA assists eligible Alberta school authorities to provide educational programming and enhance learning of Alberta Grades 1 to 12 students. A subsidy of 25% to a credit dollar maximum amount can be applied to the cost of learning resources purchased from the LRC.

Operating Principles and Procedures

- School authorities eligible to receive the LRCA are:
  - School authorities receiving Alberta School Foundation Fund (ASFF) per pupil instructional grant;
  - Accredited Private Schools under Section 22(2) of the School Act; and
  - Band and Federal Government Administered Indian Schools.
- The 2001-2002 LRCA begins April 1, 2001 and expires March 31, 2002.
- Eligible school authorities receive **$10.20** per grade 1 to 12 student (registered enrollment as of September 30, 2000 with Alberta Learning) as a **credit** at the LRC for the **purchase** of any learning resource from the LRC, unless otherwise noted.
- The LRCA will automatically apply to the selling price at the time of invoicing until the full credit allocation is used by the school authority or school, unless the order requests otherwise.

NOTE: The LRC invoice will show the (a) amount used and (b) amount remaining, by school and school authority.

e) Goods and Services Tax (GST)

Goods and Services Tax (GST)

LRC will collect the 7% GST on all taxable goods and services except for customers who are excluded from GST legislation (Indian schools on Indian reserves and out-of-country customers) and zero-rated (i.e. tax free) who have an official certificate number providing zero-rated status (provincial governments and their formally recognized entities).

- LRC invoices will show GST charges separate from commodity and service charges.
- LRC will not apply the GST on the 25% LRCA portion paid by the Alberta Government.

m) **MATERIALS FOR THE VISUALLY IMPAIRED**
(formerly the Materials Resource Centre)

Materials for the Visually Impaired

- Learning Resources Centre (LRC) loans resources for the Visually Impaired to Alberta schools:
  - essential alternate format materials in Braille, audiotape and large print,
  - essential kits, specialized equipment and professional resources, for use by their eligible pre-school to grade 12 students who are visually impaired, in order for them to make the most effective use of their educational opportunities.

- A student is visually impaired when he/she, as determined by a qualified specialist in the field of education for the visually impaired, is unable to benefit from using standard printed materials because of a visual dysfunction as opposed to a learning disability, even after corrective measures have been prescribed.
- Students who are visually impaired are registered with the LRC by a qualified specialist in the field of education for the visually impaired.
- LRC produces and sells audiotapes which are sold to Canadian schools for the use with print disabled students. Students must have an individualized program plan (IPP) that specifies the use of audiotape. A print-disabled student is one who cannot effectively use conventional print reading materials because of a physical or a learning disability. (See Student Information System User and Guide document – Appendix E.)

For more information on this service contact the LRC at:
Phone: (780) 427-4681 Fax: (780) 427-6683 Internet: http://www.lrc.learning.gov.ab.ca

7) **COPYRIGHT**

The Canadian Copyright Act is a federal law which protects intellectual property.

In 1993, Alberta's Minister of Education signed a Provincial Print License with the Canadian Reprography Collective which allows the teachers of participating school authorities and private schools to make class sets of certain materials only, in accordance with the License. If your school is part of the License, there will be a green and red poster and an Exclusions List over every photocopy machine.
The License only covers print materials. Always check the copyright page at the front of a document to see whether the rights are reserved or permission to copy has been given.
For more information about CanCopy, visit their website at www.cancopy.com.

Note: Student and Teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. A list is available on the Alberta Learning website at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

English Language Arts						
Grade: 1						
				Note: Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget. *Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.*

Note: Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Note: Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Note: Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is availabe on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

				Note: Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget. *Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.*

Note: Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

2) PURPOSE AND USE OF LRC BUYERS GUIDE

The Alberta Learning, Learning Resources Centre (LRC) Buyers Guide provides a **product listing of (1) all Alberta Learning authorized, approved and/or developed resources for use in delivering the Alberta Curriculum and Program of Studies, and (2) "EXTRA" learning resources carried by the LRC based upon customer "high demand" for the product.**

3) KEY FEATURES OF OUR BUYERS GUIDE

a) **Learning resources are organized in "alphabetical order" throughout, first by program/course area, grade or level, series (if applicable) and then by product title**.

b) Alberta Learning authorization designations are identified in the authorization status column. LRC sells additional learning resources that do not go through review or evaluation by Alberta Learning and are carried due to Alberta schools having expressed a "high demand." The products are labeled "EXTRA - Not Reviewed" in the authorization status column.

c) Most sections have their own individually numbered pages.
e.g. DE – 10 Distance Learning section, page 10;
MRC – 5 Materials Resource Centre section, page 5

d) Authorized Resources "no longer available" from source are identified as "OUT OF PRINT." Student Support resources not carried are identified as "VENDOR DIRECT." Place your order request directly with the publisher. Refer to the Publisher List section for contact information.

e) Authorized resources which may be **withdrawn** from the Alberta curriculum in August 2002 or later are shown shaded in a left vertical column called Pend. Rev. (pending review) and where possible an actual date.

f) ***General Learning Resources*** section lists resources in the following product groups: atlases, dictionaries, globes, maps, graphing calculators and accessories, and other groupings.

g) Alberta Learning Publications are listed within their appropriate program/course area with an authorization designation of "AB Learning." Legal documents appear at the beginning of each Buyers Guide section and as well in the General Learning Resources section along with other Alberta Learning publications that are of a general nature and not program/course area specific.

Previously Administered Diploma Examinations (Grade 12) & Achievement Testing Program resources are listed in their appropriate subject area.

h) LRC provides 2 types of Distance Learning Materials developed by Alberta Learning's Learning Technologies Branch (LTB) and French Language Services Branch (FLS) and other distance educational developers as follows:

- Distance Education (DE) materials which for the most part include student module(s) and corresponding assignment booklet(s).
  - The modules are non-consumable and may be used again. Assignment Booklets may be purchased as a package to update the course for the student.
  - The textbooks, videos, novels, lab kits, cassettes, etc. that may be required to complete the DE courses are available from the LRC with the exception of *out of print* resources.
  - The Learning Facilitator's Manuals (LFM) and Teacher's Guides contain the answers for marking and in most cases a final test and answers, and therefore they are available only to schools on a purchase order or to teachers with a verifiable teaching certificate number.
    - The print versions of the LRM and teacher's guides will be phased out over time and replaced by an electronic file on CD ROM, which will be available from the LRC.
      - The CD ROM will include the LRM or teacher's guide and the assignment booklets for the course.
      - The assignment booklets may be customized to meet the individual needs of the student(s) and then printed as needed at the school. The print assignment booklets will still be available from the LRC.
- Correspondence Education (CE) materials are pre-DE materials that incorporate the student lessons in the course material. The core CE courses will be replaced by new materials in the DE format over the next few years. Please consult the LTB website for course production information.

Due to the third party provision and cost recovery nature of the production of these materials, copyright releases cannot be granted on any Distance Learning course.

i) LRC sells selected curriculum resources in audiotape format to schools who have students who are print-disabled. These resources are listed under the "Materials Resource Centre Resources (1-12)" section of the Buyers Guide.

4) **DISTRIBUTION OF THE PRINT BUYERS GUIDE AND SUPPLEMENTS**

a) **DISTRIBUTION OF PRINT BUYERS GUIDE**

This year a *new* print Buyers Guide is distributed to each **School Authority Central Office** for further distribution to their schools in March. There are **three separate English Buyers Guides** for Elementary, Junior High and Senior High **and a separate French Buyers Guide for French as a First Language (Francophone and Immersion).** The distribution ratio for the English versions is based on the school's grade designations.

b) The LRC will provide print Supplements in May and August, listing new resources since the issue of the annual Buyers Guide.

5) **BUYERS GUIDE PAGE LAYOUT**

Pricing

LRC introduces new year selling prices effective April 1, 2001. Prices shown are gross selling prices and do not include application of LRCA, 7% GST or any other available discount. For detailed information on LRCA and GST refer to page GI-4. The LRC will try to hold selling prices unless unusual circumstances warrant otherwise.

Markdowns

"Markdown" selling prices (identified by a slash through the regular selling price) on specific products apply while quantities last. These products are **Non-Returnable**.

d) Learning Resources Credit Allocation (LRCA)

LRCA Purpose

The purpose of the 2001-2002 Learning Resources Credit Allocation (LRCA):

> The LRCA assists eligible Alberta school authorities to provide educational programming and enhance learning of Alberta Grades 1 to 12 students. A subsidy of 25% to a credit dollar maximum amount can be applied to the cost of learning resources purchased from the LRC.

Operating Principles and Procedures

- School authorities eligible to receive the LRCA are:
  - School authorities receiving Alberta School Foundation Fund (ASFF) per pupil instructional grant;
  - Accredited Private Schools under Section 22(2) of the School Act; and
  - Band and Federal Government Administered Indian Schools.
- The 2001-2002 LRCA begins April 1, 2001 and expires March 31, 2002.
- Eligible school authorities receive **$10.20** per grade 1 to 12 student (registered enrollment as of September 30, 2000 with Alberta Learning) as a **credit** at the LRC for the **purchase** of any learning resource from the LRC, unless otherwise noted.
- The LRCA will automatically apply to the selling price at the time of invoicing until the full credit allocation is used by the school authority or school, unless the order requests otherwise.

NOTE: The LRC invoice will show the (a) amount used and (b) amount remaining, by school and school authority.

e) Goods and Services Tax (GST)

Goods and Services Tax (GST)

LRC will collect the 7% GST on all taxable goods and services except for customers who are excluded from GST legislation (Indian schools on Indian reserves and out-of-country customers) and zero-rated (i.e. tax free) who have an official certificate number providing zero-rated status (provincial governments and their formally recognized entities).

- LRC invoices will show GST charges separate from commodity and service charges.
- LRC will not apply the GST on the 25% LRCA portion paid by the Alberta Government.

m) **MATERIALS FOR THE VISUALLY IMPAIRED**
(formerly the Materials Resource Centre)

Materials for the Visually Impaired

- Learning Resources Centre (LRC) loans resources for the Visually Impaired to Alberta schools:
  - essential alternate format materials in Braille, audiotape and large print,
  - essential kits, specialized equipment and professional resources, for use by their eligible pre-school to grade 12 students who are visually impaired, in order for them to make the most effective use of their educational opportunities.

- A student is visually impaired when he/she, as determined by a qualified specialist in the field of education for the visually impaired, is unable to benefit from using standard printed materials because of a visual dysfunction as opposed to a learning disability, even after corrective measures have been prescribed.
- Students who are visually impaired are registered with the LRC by a qualified specialist in the field of education for the visually impaired.
- LRC produces and sells audiotapes which are sold to Canadian schools for the use with print disabled students. Students must have an individualized program plan (IPP) that specifies the use of audiotape. A print-disabled student is one who cannot effectively use conventional print reading materials because of a physical or a learning disability. (See Student Information System User and Guide document – Appendix E.)

For more information on this service contact the LRC at:
Phone: (780) 427-4681 Fax: (780) 427-6683 Internet: http://www.lrc.learning.gov.ab.ca

7) **COPYRIGHT**

The Canadian Copyright Act is a federal law which protects intellectual property.

In 1993, Alberta's Minister of Education signed a Provincial Print License with the Canadian Reprography Collective which allows the teachers of participating school authorities and private schools to make class sets of certain materials only, in accordance with the License. If your school is part of the License, there will be a green and red poster and an Exclusions Lis over every photocopy machine.
The License only covers print materials. Always check the copyright page at the front of a document to see whether the rights are reserved or permission to copy has been given.
For more information about CanCopy, visit their website at www.cancopy.com.

English Language Arts

Grade: 7

Note: Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both student audience and the community.

Note. Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the students texts and all activities in the teachers guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

Note: Student and teacher resources for English Language Arts K-10 that were reviewed through the Western Canadian Protocol project and have received authorized status for Alberta are incorporated into this listing. The complete listing of resources approved through this review should be authorized by June 2001. The list is available on the Alberta Learning web site at http://ednet.edc.gov.ab.ca. It is recommended that new resources be reviewed for gradual phase-in, according to need, community appropriateness and available budget.

Alberta Learning strongly recommends that teachers read all selections in the student texts and all activities in the teacher guides prior to using them with students. Careful consideration should be given to the sensitivities of both the student audience and the community.

2) Purpose and Use of LRC Buyers Guide

The Alberta Learning, Learning Resources Centre (LRC) Buyers Guide provides a **product listing of (1) all Alberta Learning authorized, approved and/or developed resources for use in delivering the Alberta Curriculum and Program of Studies, and (2) "EXTRA" learning resources carried by the LRC based upon customer "high demand" for the product.**

3) Key Features of our Buyers Guide

a) **Learning resources are organized in "alphabetical order" throughout, first by program/course area, grade or level, series (if applicable) and then by product title**.

b) Alberta Learning authorization designations are identified in the authorization status column. LRC sells additional learning resources that do not go through review or evaluation by Alberta Learning and are carried due to Alberta schools having expressed a "high demand." The products are labeled "EXTRA - Not Reviewed" in the authorization status column.

c) Most sections have their own individually numbered pages.
e.g. DE – 10 Distance Learning section, page 10;
MRC – 5 Materials Resource Centre section, page 5

d) Authorized Resources "no longer available" from source are identified as "OUT OF PRINT." Student Support resources not carried are identified as "VENDOR DIRECT." Place your order request directly with the publisher. Refer to the Publisher List section for contact information.

e) Authorized resources which may be **withdrawn** from the Alberta curriculum in August 2002 or later are shown shaded in a left vertical column called Pend. Rev. (pending review) and where possible an actual date.

f) ***General Learning Resources*** section lists resources in the following product groups: atlases, dictionaries, globes, maps, graphing calculators and accessories, and other groupings.

g) Alberta Learning Publications are listed within their appropriate program/course area with an authorization designation of "AB Learning." Legal documents appear at the beginning of each Buyers Guide section and as well in the General Learning Resources section along with other Alberta Learning publications that are of a general nature and not program/course area specific.

Previously Administered Diploma Examinations (Grade 12) & Achievement Testing Program resources are listed in their appropriate subject area.

h) LRC provides 2 types of Distance Learning Materials developed by Alberta Learning's Learning Technologies Branch (LTB) and French Language Services Branch (FLS) and other distance educational developers as follows:

- Distance Education (DE) materials which for the most part include student module(s) and corresponding assignment booklet(s).
  - The modules are non-consumable and may be used again. Assignment Booklets may be purchased as a package to update the course for the student.
  - The textbooks, videos, novels, lab kits, cassettes, etc. that may be required to complete the DE courses are available from the LRC with the exception of *out of print* resources.
  - The Learning Facilitator's Manuals (LFM) and Teacher's Guides contain the answers for marking and in most cases a final test and answers, and therefore they are available only to schools on a purchase order or to teachers with a verifiable teaching certificate number.
    - The print versions of the LRM and teacher's guides will be phased out over time and replaced by an electronic file on CD ROM, which will be available from the LRC.
      - The CD ROM will include the LRM or teacher's guide and the assignment booklets for the course.
      - The assignment booklets may be customized to meet the individual needs of the student(s) and then printed as needed at the school. The print assignment booklets will still be available from the LRC.
- Correspondence Education (CE) materials are pre-DE materials that incorporate the student lessons in the course material. The core CE courses will be replaced by new materials in the DE format over the next few years. Please consult the LTB website for course production information.

Due to the third party provision and cost recovery nature of the production of these materials, copyright releases cannot be granted on any Distance Learning course.

Pricing

LRC introduces new year selling prices effective April 1, 2001. Prices shown are gross selling prices and do not include application of LRCA, 7% GST or any other available discount. For detailed information on LRCA and GST refer to page GI-4. The LRC will try to hold selling prices unless unusual circumstances warrant otherwise.

Markdowns

"Markdown" selling prices (identified by a slash through the regular selling price) on specific products apply while quantities last. These products are **Non-Returnable**.

d) Learning Resources Credit Allocation (LRCA)

LRCA Purpose

The purpose of the 2001-2002 Learning Resources Credit Allocation (LRCA):

> The LRCA assists eligible Alberta school authorities to provide educational programming and enhance learning of Alberta Grades 1 to 12 students. A subsidy of 25% to a credit dollar maximum amount can be applied to the cost of learning resources purchased from the LRC.

Operating Principles and Procedures

- School authorities eligible to receive the LRCA are:
  - School authorities receiving Alberta School Foundation Fund (ASFF) per pupil instructional grant;
  - Accredited Private Schools under Section 22(2) of the School Act; and
  - Band and Federal Government Administered Indian Schools.
- The 2001-2002 LRCA begins April 1, 2001 and expires March 31, 2002.
- Eligible school authorities receive **$10.20** per grade 1 to 12 student (registered enrollment as of September 30, 2000 with Alberta Learning) as a **credit** at the LRC for the **purchase** of any learning resource from the LRC, unless otherwise noted.
- The LRCA will automatically apply to the selling price at the time of invoicing until the full credit allocation is used by the school authority or school, unless the order requests otherwise.

NOTE: The LRC invoice will show the (a) amount used and (b) amount remaining, by school and school authority.

e) Goods and Services Tax (GST)

Goods and Services Tax (GST)

LRC will collect the 7% GST on all taxable goods and services except for customers who are excluded from GST legislation (Indian schools on Indian reserves and out-of-country customers) and zero-rated (i.e. tax free) who have an official certificate number providing zero-rated status (provincial governments and their formally recognized entities).

- LRC invoices will show GST charges separate from commodity and service charges.
- LRC will not apply the GST on the 25% LRCA portion paid by the Alberta Government.

h) Minimizing Order Delays

Order Delays

To minimize order delays – we encourage you to: (a) aggregate your order (page GI-1) with LRC by April 30, 2001 and LRC will ensure resources are shipped by school opening, or (b) place your order well before the time required especially prior to your September school opening and semester changes. The major benefits of ordering early are:

- Advance knowledge of product demand enables the LRC to work with publishers to keep stock available and initiate any product reprints earlier.
- Student learning time increases by improving learning resource availability to teachers and students.

m) **MATERIALS FOR THE VISUALLY IMPAIRED**
(formerly the Materials Resource Centre)

Materials for the Visually Impaired

- Learning Resources Centre (LRC) loans resources for the Visually Impaired to Alberta schools:
  - essential alternate format materials in Braille, audiotape and large print,
  - essential kits, specialized equipment and professional resources, for use by their eligible pre-school to grade 12 students who are visually impaired, in order for them to make the most effective use of their educational opportunities.

- A student is visually impaired when he/she, as determined by a qualified specialist in the field of education for the visually impaired, is unable to benefit from using standard printed materials because of a visual dysfunction as opposed to a learning disability, even after corrective measures have been prescribed.
- Students who are visually impaired are registered with the LRC by a qualified specialist in the field of education for the visually impaired.
- LRC produces and sells audiotapes which are sold to Canadian schools for the use with print disabled students. Students must have an individualized program plan (IPP) that specifies the use of audiotape. A print-disabled student is one who cannot effectively use conventional print reading materials because of a physical or a learning disability. (See Student Information System User and Guide document – Appendix E.)

For more information on this service contact the LRC at:
Phone: (780) 427-4681 Fax: (780) 427-6683 Internet: http://www.lrc.learning.gov.ab.ca

7) **COPYRIGHT**

The Canadian Copyright Act is a federal law which protects intellectual property.

In 1993, Alberta's Minister of Education signed a Provincial Print License with the Canadian Reprography Collective which allows the teachers of participating school authorities and private schools to make class sets of certain materials only, in accordance with the License. If your school is part of the License, there will be a green and red poster and an Exclusions List over every photocopy machine.
The License only covers print materials. Always check the copyright page at the front of a document to see whether the rights are reserved or permission to copy has been given.
For more information about CanCopy, visit their website at www.cancopy.com.

Series: Choices Careerware

CHOICES engages high school students in an interactive, computerized process that builds self-knowledge, encourages exploration of occupations and schools, and develops career decision-making skills. Students learn what is important in finding an occupation, and are assisted with a step-by-step approach to career exploration, identifying promising career paths. The program includes online computerized versions of the 144-item Career Area Interest Checklist and the 75-item Work Preference Checklist.

The CHOICES OCCUPATIONS and EDUCATION COMPONENTS are combined into one integrated program. The Occupations Component contains over 1200 detailed NOC occupational profiles, with descriptions for another 3000. Students can search actual job listings by using CHOICES direct INTERNET connection to FEDERAL and PROVINCIAL JOB BANKS. The Educational Component complements the occupational database by providing students with up-to-date information for over 1000 post-secondary institutions and over 1300 programs of study across Canada. Students can now use the INTERNET to connect to post-secondary institutions directly from where they can apply electronically or simply select information from the web-site. CHOICES shows students how to compare their options and plan their educational future. CHOICES now includes a dynamic ELECTRONIC PORTFOLIO which provides an online STUDENT PLANNER where students can record information about activities, achievements and educational goals. Additional topics include job search, interviewing, writing a skills-based resume, making a career plan as well as dealing with challenges and barriers to employment. Extra Disks for CHOICES (either format) are available through ISM.

CHOICESCONNECT option complements the regular CHOICES program by allowing students to use eCHOICES on the Internet both at school and at home. 100 Student ID numbers are included with the program.

CHOICES CAREER FUTURES engages junior high school students in an exciting computer-based career program that invites students to learn more about themselves, begin thinking about their high school and career plans and explore hundreds of occupations. Students assess interest through a 144-item online checklist and receive a printed report that profiles their results by 12 Career Areas and shows related occupations. Current and useful information about more than 1200 occupations based on the NOC system is included. There are many topics for exploring occupations such as career areas, education and school subjects. Students find the Career Futures Electronic Portfolio and Planner a great interactive tool to enter personal information and to receive suggestions on high school courses. Students can save their Planner files on a pesonal disk to use with the CHOICES computer program during high school.

The CHOICES Multimedia Option, which features live action videos of occupations and career clusters, can be accessed directly while viewing CHOICES occupational information or CHOICES CAREER FUTURES on the computer screen. Over 160 careers are contained in the 4 CD-ROM package. Extra CD-ROMs are available through ISM.

The CHOICES U.S. Undergraduate File contains comprehensive and up-to-date information on more than 4000 U.S. Colleges, trade and technical schools and more than 800 undergraduate majors. Students can search the database using such topics as State, degrees offered, admission requirements, athletic programs, student housing and tuition fees.

The Career Aptitude Survey (CAS) is a valuable measure of work-related aptitudes for high school students. The Career Aptitude Survey compterized, multi-aptitude battery gives individuals a snapshot of their potential for specific occupations. The Career Aptitude Survery can be used as a stand alone or fully integrated with CHOICES3 online assessments. CAS measures the Key World of Work Aptitudes on 5 subtests including Verbal Comprehension, Numerical Ability, Visual Speed and Accuracy, Space Visualization and Numerical Reasoning. The Career Aptitude Survey can be administered for Career Exploration and/or Vocational Guidance. A qualification form is required.

Special Pricing is available through District Licensing(when all or most of the schools within a school district purchase CHOICES Carreerware Programs).

English

Note: Alberta is participating in the Western Canadian Protocol review of Kindergarten to Grade 10 English Language resources. The first phase of this resource review occured in March 2000; the second phase in March 2001. WCP Grade 10 resources will be reviewed for authorization for Alberta by June 2001, prior to provincial implementation of the Grade 10 course(s). Alberta will review and authorize resources for the new Grade 11 and Grade 12 courses prior to implementation in September 2002 and 2003. It is recommended that schools continue to use presently authorized resources as needed.

As new resources become available, they should be previewed and gradually phased-in, according to need, community appropriateness, implementation timelines and available budget.

CAREER AND TECHNOLOGY STUDIES

Career and Technology Studies (CTS) is an optional program designed for Alberta's secondary school students. As of September 1997, CTS replaced all junior and senior high school practical arts courses (i.e., former courses business education, home economics, industrial arts and vocational education).

As a program of choice, CTS enables junior and senior high school students to:

- investigate career options and make effective career choices
- learn to use technology (tools, processes) effectively and efficiently
- make connections with learnings developed in other subject areas
- prepare for entry into the workplace or further learning.

There are 22 strands in CTS. Each strand is comprised of a group of one-credit courses designed to support positive career and occupational opportunities for students. In general, strands relate to selected industry sectors, including goods-producing industries, such as agriculture, manufacturing and construction; and service-producing industries, such as business, health and finance. Learnings within any particular strand may involve similar tools and technologies, clientele, working environments, products and processes.

CTS is developed across levels rather than grades. The levels structure provides junior and senior high school students with multiple entry points into a common curriculum. Each strand in CTS offers introductory, intermediate and advanced level courses as described below.

> **Introductory** (Level 1) courses help students build daily living skills and form the basis for further learning. Introductory courses are for students who have no previous experience in the strand.
>
> **Intermediate** (Level 2) courses build on the competencies developed at the introductory level. They provide a broader perspective, helping students recognize the wide range of related career opportunities available within the strand.
>
> **Advanced** (Level 3) courses refine expertise and help prepare students for entry into the workplace or a related post-secondary program.

Multiple-credit offerings in CTS are planned at the school/system level by combining one-credit courses that best suit the needs of students, the school/school system and the community. The curriculum structure permits schools and teachers to combine one-credit CTS courses:

- within and across strands
- within and across levels
- with other non-CTS core and optional courses.

CTS encourages the development of resource-based classrooms where a variety of appropriate, up-to-date print and non-print resources are available. Ready access to a strong resource base will enable students to learn to screen and use information appropriately, solve problems, meet specific learning needs, and develop competency in reading, writing, speaking, listening and viewing.

Series: FoolProof Security Software

FoolProof Security Software is eligible for purchase by Alberta Educational Instituations Only

FoolProof Security Software from SmartStuff Inc. is a powerful, full featured desktop solution. This cross-platform, fully network-compatible software protects the operating system and hard-drive, allows multiple security groups, locks applications and control panels, directs file saving, provides Internet access security and controls system startup, all in a one-step installation.

Alberta Learning's LRC provincially negotiated and acquired FoolProof in a bulk purchase for Alberta schools at a substantially reduced price.

IMPORTANT ORDERING INFORMATION: To take advantage of the best possible pricing and for easy, effective implementation of the software in your schools, the LRC and SmartStuff Software Inc, request that DISTRICT SCHOOLS WORK TOGETHER THROUGH THEIR DISTRICT TECHNOLOGY COORDINATOR (DTC) OR EQUIVALENT TO EVALUATE AND COORDINATE THE PURCHASE OF FOOLPROOF.

ONCE it is determined how many of your district school computers need to be licensed for FoolProof, the DTC should contact and/or send a purchase order to the LRC for media and manuals and the type of licenses that are required.

FoolProof Software is sold as LICENSES to cover copyright permission for all cpu's. The district requirements should be purchased on a per platform basis, by ordering at least 1 copy of the MEDIA and the rest of the order requirements should be LICENSES or BUILDING LICENSES to cover all cpu's. MANUALS are sold separately.

EXAMPLE: A district has 110 Windows 95/98 stations in 4 of their district schools-the order to the LRC would be for 1 or more WIN 95/98 MEDIA and 110 WIN 95/98 License Paks and the required number of Manuals. The LRC invoice and/or pick ticket is your legal proof of purchase as there in no actual LICENSE COMING FROM THE LRC.

ONCE your order is received from the LRDC, the DTC must contact SmartStuff to register your FoolProof aqcuisition 1-800-671-3999 to obtain the necessary CODES to the password-protected software and receive your certificate of purchase and licensing information.

Again, it is recommended that the DTC or equivalent coordinate the entire process as they will also be the focal contact person for SmartStuff regarding technical information as well.

Note: Alberta is participating in the Western Canadian Protocol review of Kindergarten to Grade 10 English Language resources. The first phase of this resource review occurred in March 2000; the second phase in March 2001. WCP Grade 10 resources will be reviewed for authorization for Alberta by June 2001, prior to provincial implementation of the Grade 10 course(s). Alberta will review and authorize resources for the new Grade 11 and Grade 12 courses prior to implementation in September 2002 and 2003. It is recommended that schools continue to use presently authorized resources as needed.

As new resources become available, they should be previewed and gradually phased-in, according to need, community appropriateness, implementation timelines and available budget.

				Note: Alberta is participating in the Western Canadian Protocol review of Kindergarten to Grade 10 English Language resources. The first phase of this resource review occurred in March 2000; the second phase in March 2001. WCP Grade 10 resources will be reviewed for authorization for Alberta by June 2001, prior to provincial implementation of the Grade 10 course(s). Alberta will review and authorize resources for the new Grade 11 and Grade 12 courses prior to implementation in September 2002 and 2003. It is recommended that schools continue to use presently authorized resources as needed. *As new resources become available, they should be previewed and gradually phased-in, according to need, community appropriateness, implementation timelines and available budget.*
